THE ISM-CI BYLAW AMENDMENTS ARE APPROVED

Dr. Kemp, April 23, 2010

During the first week of April, ISM-CI conducted an electronic vote of the Regular Members in good standing to ascertain whether or not the Regular members would approve the two proposed bylaw changes. You recall that the first amendment was to make the ISM-CI definition of Regular members coincide with the new ISM definition approved earlier by the national membership. One of the conditions of affiliation is that our ISM-CI definition of Regular Members must match the ISM definition. The second amendment proposed to the membership concerned the organization and utilization of a new ISM-CI team called the ISM-CI Leadership Development Team. This new team will help the ISM-CI President and the Board motivate and develop additional leadership needed by the affiliate to support ongoing leadership needs and generate leadership interest training and opportunities for ISM-CI Members. The voting process ended at 5:00 PM on April 11, 2010. The number of Regular members voting exceeded the requirements for a quorum established in the Bylaws. Likewise, the Regular members voting approved the two proposed amendments by a wide margin. The margin of affirmative votes exceeded the margin required by the Bylaws. Both proposed amendments were approved by the Regular membership. A copy of our revised Bylaws has been sent to ISM for final approval. ISM has now advised the ISM-CI President, Kraig Koehler, C.P.M., that the draft ISM-CI Bylaws approved by the ISM-CI Regular members are in compliance with the ISM requirements and are approved for publication and use by ISM-CI and the membership.

An official copy of the new ISM-CI Bylaws is now posted on the ISM-CI Website and may be downloaded for your use or reference.
